#### 1. Product Introduction of Hardcover Book Printing with round spine

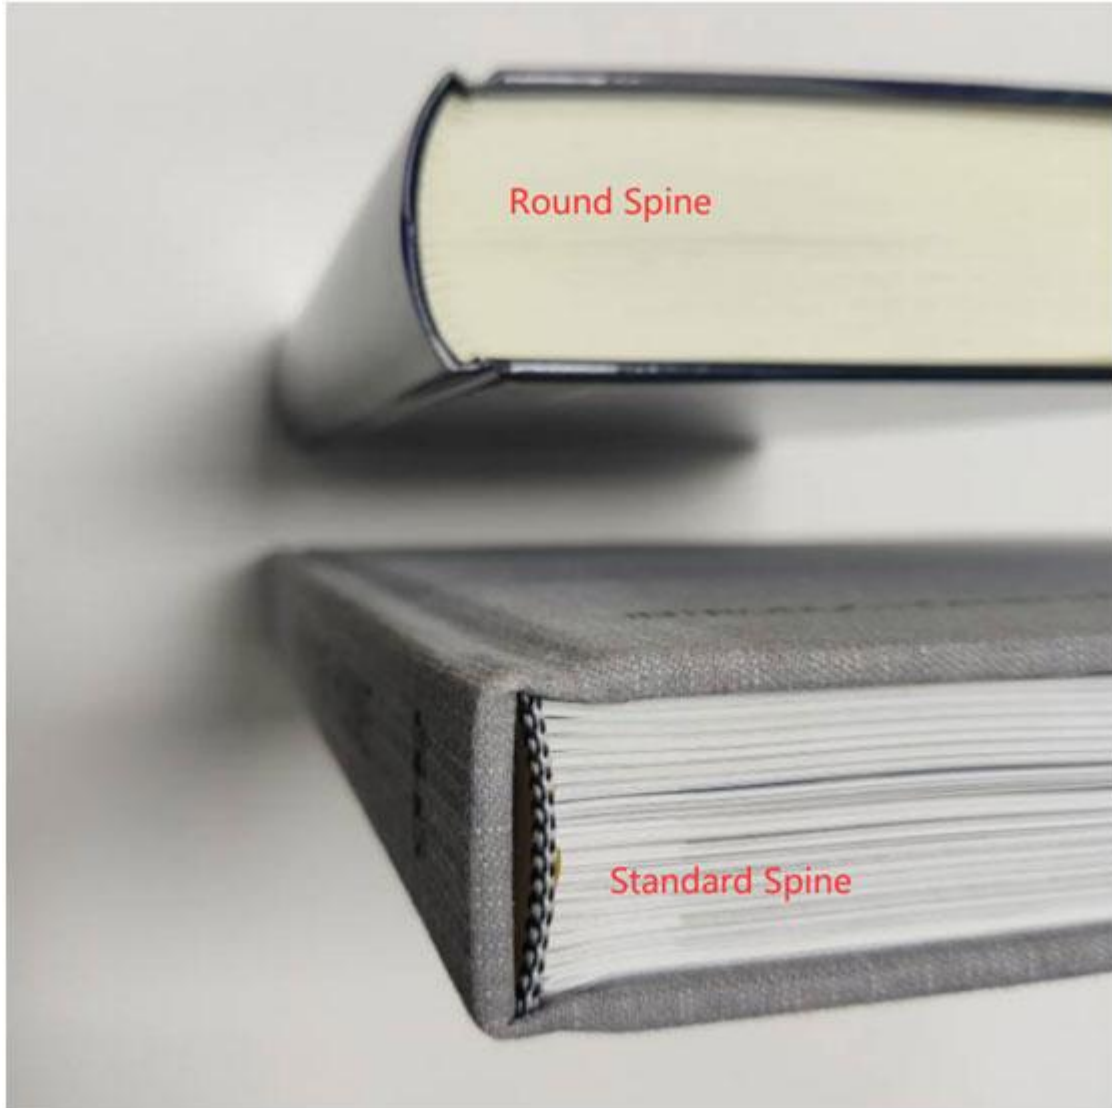

A rounded and backed case binding gives your spine a classic rounded shape. This older style of bookbinding was used to accommodate hand-sewn signatures and build a shoulder and hinge for the boards of the cover. Modern rounded spines are more of an aesthetic choice that can give your book a classical old-world look and feel. As seen in the photo, a rounded and backed case binding will give your project a vintage aesthetic. You can even pair it with a raised band spine to really lean into your book looking older.

Ask for a custom quote to add a rounded and backed case binding to your project. Of course, if you're not sure if this option is right for you, feel free to ask one of our friendly customer service Rich Color as for their thoughts – we'll help you out!
